

About us

Burgmann Packings is a privately owned manufacturer of metallic gaskets, compression packings and graphite rings with operations in China, Ireland, Turkey and head-quarters in Germany.

With over 130 years experience Burgmann Packings sealing products can be found in all industry sectors on a global basis. With our worldwide manufacturing locations Burgmann Packings can meet the most demanding quality and delivery expectations globally.

Burgmann Packings is at the forefront in developing new sealing solutions using high performance raw materials. In combination with our own research and development facilities we collaborate with leading test institutes and universities to provide most up-to-date solutions for operating processes and environmental protection.

With all our products we aim to provide the best sealing solutions. We strive to meet customer requirements in safety, reliability, performance and optimised life-cycle costs.

Growing from our German manufacturing base all of our facilities are equipped with advanced production technologies. Our production sites are certified to ISO 9001 and are able to manufacture according to international standards such as ASME and EN as well as to specific customer requirements.

Our products are exported to more than 30 countries worldwide and have an excellent reputation with customers.

Purchaser Ireland (m/w)
